

CHECKLIST FOR SWMU RESPONSES

E.I.
Name of Facility DuPont
EPA I.D. # PAD 002311804
Date Received 11/29/86

1. Is facility currently storing less than 90 days. YES ✓ NO

2. Did facility claim that they filed in error YES ✓ NO

3. Description/Number of SWMU's _____
Land Disposal _____ Incinerators _____ Tanks _____
Land Treatment _____ Surface Impoundments _____ Drums _____
Other _____

4. Is there evidence of contamination YES _____ NO _____
Groundwater: YES _____ NO _____
Surface Water: YES _____ NO _____
Air: YES _____ NO _____

5. Certification YES _____ NO ✓

6. PRIORITY

HIGH----Reported evidence of release to air, ground or surface water.

MEDIUM--No releases reported but land based SWMUs reported.

✓ LOW-----Everything else.

7. Comments:

Dear Sir:

This facility no longer stores or treats hazardous waste. We are but a small quantity generator. Our correct E.P.A. I.D. No. is PAD002311884.

Please refer to attached documents concerning interim status termination. If more information is needed, please contact the writer at (215) 339-6629.

Sincerely,

JOHN G. WELDON
HAZARDOUS WASTE COORDINATOR

BETTER THINGS FOR BETTER LIVING

U.S. ENVIRONMENTAL PROTECTION AGENCY

INSTRUCTIONS: If you received a preprinted label, affix it in the space at left. If any of the information on the label is incorrect, draw a line through it and supply the correct information in the appropriate section below. If the label is complete and correct, leave Items I, II, and III below blank. If you did not receive a preprinted label, complete all items. "Installation" means a single site where hazardous waste is generated, treated, stored and/or disposed of, or a transporter's principal place of business. Please refer to the INSTRUCTIONS FOR FILING NOTIFICATION before completing this form. The information requested herein is required by law (*Section 3010 of the Resource Conservation and Recovery Act*).

Re: PAD-00232284 00 23/ 1884

Dear Mr. Bours:

Sections 3004(u) and 3008(h) of the Hazardous and Solid Waste Amendments of 1984 (RCRA Reauthorization) give EPA the authority to require corrective action for all releases of hazardous wastes or constituents from any solid waste management unit ("SWMU") as defined on the enclosed sheet. This requirement applies to operating units, inactive units, as well as those that are closing or have been closed in the past.

EPA and the State must first determine the location of all SWMUs at your facility. Next, we must determine whether or not any "releases" (see definitions) originated at these units. In order to enable us to make these determinations, you must provide the following information:

- (1) A topographic map showing the facility and a distance of 1,000 feet around it, at a scale of one-inch equal to not more than 200 feet. In addition to showing the location of the hazardous waste management facilities for which you are seeking a permit, it must locate all existing and former SWMUs at your facility.
- (2) For each SWMU, provide a description of the unit's functions, material of construction, dimensions, capacity, ancillary systems (piping), etc. If available, provide engineering drawings of the units and their foundations. For closed facilities, also provide

Re: Notification to Terminate Interim Status
Facility Name: E. I. Du Pont de Nemours & Co., Inc.
EPA I.D. Number: PAD 00 231 1884

Dear Mr. Bours:

Enclosed is the notification of interim status termination for the above referenced facility. This action is in accordance with your request to withdraw the Part A application and to terminate the interim status of your facility. This notification constitutes a final permit decision under Title 40, Code of Federal Regulations Section 124.15 (45 CFR 33490, May 19, 1980).

This decision to terminate interim status does not relieve you of your responsibilities, under RCRA, for closure of the facility. If closure is required, the administrative procedures for closure must begin immediately.

Your Part A application is enclosed if it was not previously returned to you. If you have any questions regarding this notification or your responsibilities under RCRA, please contact Ms. Joan Henry at the letterhead address or you may telephone her at (215) 597-8751.

Sincerely yours,

A handwritten signature in cursive script, appearing to read "Stephen R. Wassersug".

3500 Grays Ferry Ave.
Philadelphia, PA 19146

Name and Address of Facility:

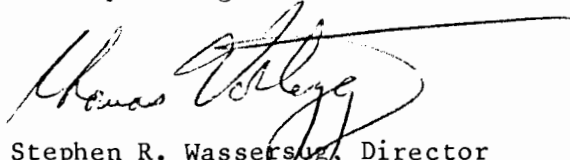

E. I. Du Pont de Nemours & Co., Inc.
3500 Grays Ferry Ave.
Philadelphia, PA 19146

EPA I.D. No.

PAD 00 231 1884

Description of Facility and Action: The above facility has, since November 19, 1980, operated a hazardous waste management facility subject to regulations promulgated under the Resource Conservation and Recovery Act. This facility qualified for interim status, which is conferred by the Act and allows a facility to operate until final disposition of its permit application. On August 23, 1982, EPA requested from this facility its complete permit application. By letter of December 17, 1982, the facility indicated that it would no longer operate as a hazardous waste management facility so would not be submitting the permit application. EPA followed the Public Notification procedures outlined in 40 C.F.R. Part 124 in taking this final permit action. No public comments were received during the public comment period.

The action finalized by this notice is the termination of interim status for this facility by authority of regulation 40 C.F.R. §§270.10(e)(5) and 270.73. Upon termination of interim status, this facility is prohibited from operating as a hazardous waste management facility.

EPA I.D. No.

PAD002311884

Description of Facility and Proposed Action: The above facility has, since November 19, 1980, operated a hazardous waste management facility subject to regulations promulgated under the Resource Conservation and Recovery Act. This facility qualified for interim status, which is conferred by the Act and allows a facility to operate until final disposition of its permit application. On August 23, 1983 EPA requested from this facility its complete permit application. By letter of December 17, 1982 the facility indicated that it would no longer operate as a hazardous waste management facility so would not be submitting the permit application. The action proposed by this notice is the termination of interim status for this facility by authority of regulation 40 C.F.R. §§ 270.10(e)(5) and 270.73. Upon termination of interim status, this facility is prohibited from operating as a hazardous waste management facility.

Availability of Information: All data submitted by the applicant and all related information is available as part of the administrative record. It may be inspected and arrangements made for copying at the EPA offices at the above address at any time between 9:00 A.M. and 4:00 P.M., Monday through Friday. For further information please contact Shirley Bulkin at (215) 597-4269.

Procedures for Public Participation: On the basis of its review of this facility's permit file, EPA proposes to terminate the facility's interim status. Persons wishing to comment on this proposed action are invited to submit a statement to the Director of the Air and Waste Management Division within 60 days from the date of this notice. All comments should include the name, address and telephone number of the writer and a concise statement of the basis of the comments and the facts upon which it is based. The comments may include a request for a public hearing on the proposed action and the nature of the issues proposed to be raised. If these comments relating to termination of interim status include a request for a public hearing, one will be held on this proposed action.

All comments received will be considered in the formulation of the final action in this matter. EPA's final action in this matter is subject to review under the evidentiary hearing procedures in 40 C.F.R. Part 124, Subpart E.

Re: Identification No. PAD/X02311884

Dear Mr. Bours:

It has been determined by our staff that you are not a TSD facility or that you qualify under the permit by rule provision in our hazardous waste management rules and regulations.

Therefore, you will not have to submit a Part B hazardous waste permit application and we are returning your Part A application if you previously submitted one to the Department.

This means you no longer have interim status as a TSD facility and you may not engage in this type of activity at your facility. You will not be required to secure a hazardous waste management permit for your facility, but you are still subject to any portion of the hazardous waste management rules and regulations published in the Pennsylvania Bulletin September 4, 1982 which pertain to your facility. This includes the submission of a closure plan if you operated as a treatment storage or disposal facility after November 19, 1980.

If you qualify under the permit by rule provision of the regulations then you may continue to operate as a hazardous waste facility in accordance with NPDES or local sewer authority requirements.

This does not release you from Environmental Protection Agency requirements. You will have to contact their Philadelphia Regional Office to verify that you do not have to submit a Part B application to their agency.

If you have any questions concerning this, I can be reached at 631-2420.

Very truly yours,

LAWRENCE H. DUNSK

Re: Identification No. PAD002311884

Dear Mr. Bours:

It has been determined by our staff that you are not a TSD facility or that you qualify under the permit by rule provision in our hazardous waste management rules and regulations.

Therefore, you will not have to submit a Part B hazardous waste permit application and we are returning your Part A application if you previously submitted one to the Department.

This means you no longer have interim status as a TSD facility and you may not engage in this type of activity at your facility. You will not be required to secure a hazardous waste management permit for your facility, but you are still subject to any portion of the hazardous waste management rules and regulations published in the Pennsylvania Bulletin September 4, 1982 which pertain to your facility. This includes the submission of a closure plan if you operated as a treatment storage or disposal facility after November 19, 1980.

If you qualify under the permit by rule provision of the regulations then you may continue to operate as a hazardous waste facility in accordance with NPDES or local sewer authority requirements.

This does not release you from Environmental Protection Agency requirements. You will have to contact their Philadelphia Regional Office to verify that you do not have to submit a Part B application to their agency.

If you have any questions concerning this, I can be reached at 631-2420.

Very truly yours,

LAWRENCE H. LUNSK

UNITED STATES ENVIRONMENTAL PROTECTION AGENCY

REGION III

6TH AND WALNUT STREETS
PHILADELPHIA, PENNSYLVANIA 19106

August 9, 1981

Mr. W. A. Bours, III
E. I. DuPont-Philadelphia Plant
3500 Graysferry Avenue
Philadelphia, PA 19146

Dear Mr. Bours:

This is to acknowledge that the Environmental Protection Agency has completed processing the information submitted in your Part A Hazardous Waste Permit Application. It is the Agency's opinion, based on the assumption that the information submitted is complete and accurate, you as an owner or operator of a hazardous waste management facility have met the requirements of Section 3005(e) of the Resource Conservation and Recovery Act (RCRA) for Interim Status. EPA has not verified the information submitted. If it is determined that the information is incomplete or inaccurate, you may be asked to provide additional information or in certain circumstances it may be determined that you do not qualify for interim status. In addition, this notice does not preclude a citizen from taking legal action under the provisions of Section 7002 of RCRA.

A facility not meeting the requirements for interim status under Section 3005 of RCRA may be required to close until such time as a hazardous waste permit is issued. Interim status may also be terminated, according to procedures in 40 CFR Part 124, if the owner or operator fails to furnish additional information which EPA requests in order to process a permit application.

As an owner or operator of a hazardous waste management facility, you are required to comply with the interim status standards as prescribed in 40 CFR Parts 122 and 265 or with State rules and regulations in those States which have been authorized under Section 3006 of RCRA. In addition, you are reminded that operating under interim status does not relieve you from the need to comply with all applicable State and local requirements.

The enclosure to this letter identifies the processes your facility may use, their design capacities, and types of waste your facility may accept during interim status. This information was obtained from the Part A Permit Application. If you wish to handle new wastes, change processes, increase the design capacity of existing processes, or change ownership or operational control of the facility, you may do so only as provided in 40 CFR Sections 122.22 and 122.23.

If you have any questions concerning this letter, please write to the address shown or call Bill Walsh at 215/597-1230.

Sincerely yours,

Shirley D. Bulkin

CONDITIONS OF OPERATION DURING
INTERIM STATUS

AMENDED

Date Prepared: August 9, 1981

The information shown below is based solely on the information that the owner and operator of this facility submitted in Part A of the Hazardous Waste Permit Application. This is not a determination by EPA that this facility is an environmentally acceptable facility for treating, storing or disposing of the hazardous wastes listed below.

I. Facility name, location, and EPA Identification Number.

Name:

E. I. DuPont - Philadelphia Plant

Location:

3500 Graysferry Avenue
Philadelphia, PA 19146

EPA I.D. No.: PAD 00 231 1884

II. EPA considers the following to be the owner or operator of the facility and therefore the person(s) who must comply with the requirements set forth in 40 CFR Parts 122 and 265.

Owner's Name: Mr. W. A. Bours, III, Vice President Fabrics and Finishes

Operator's Name:

III. During the period of interim status, the facility may use only the following processes for treating, storing or disposing of hazardous waste, up to the design capacities that are indicated.

<u>PROCESS</u>	<u>DESIGN CAPACITY</u>
<u>S01</u>	<u>150,000 Gals.</u>
<u>S02</u>	<u>12,000 Gals.</u>
<u>T01</u>	<u>72,000 Gals/Day</u>
<u> </u>	<u> </u>
<u> </u>	<u> </u>

IV. During the period of interim status, the facility may handle only the hazardous wastes with the following EPA Hazardous Waste Numbers, and/or solid waste exhibiting hazardous characteristics with the following EPA Hazardous Waste Numbers.

<u>F003</u>	<u>F005</u>	<u>D007</u>	<u>D008</u>	<u> </u>
<u> </u>	<u> </u>	<u> </u>	<u> </u>	<u> </u>
<u> </u>	<u> </u>	<u> </u>	<u> </u>	<u> </u>

Attention: Ms. Shirley D. Bulkin (3EN24)

Gentlemen:

In response to your letter of June 20, 1981, to Mr. W. A. Bours, III, please be advised that, although the listing of the hazardous waste stream K078 has been suspended, our waste stream initially reported in Part A as K078 does contain spent non-halogenated solvents such as xylene and toluene and therefore should now be characterized as F003 and F005.

Similarly, waste streams K079, K080, and K082 will contain extractable quantities of chromium and lead and should now be listed as D007/D008.

Therefore, in addition to storage of up to 150,000 gals. (S01) our permit should also include storage of 12,000 gals. (S02) and treatment of 72,000 gals. per day (T01), and F003 and F005 should be added to D007 and D008 as permitted hazardous waste numbers.

If there are any questions, please write or call me at (215) 339-6081.

Very truly yours,

E. I. DU PONT DE NEMOURS & COMPANY, INC.

Re: Paint Wastes

EPA has completed its initial review of your application to treat/store/dispose of hazardous waste under the Resource Conservation and Recovery Act (RCRA). The paint wastes listed as being handled by your facility have been temporarily suspended from regulation as a listed hazardous waste. An amendment to 40 CFR Part 261.32, Hazardous Waste from Specific Sources, was published in the Federal Register on January 16, 1981. This amendment temporarily suspended the listing of all wastes from the manufacture of paints (EPA Hazardous Wastes Nos. F017, F018, K078, K079, K081, K082) until further study on those wastes has been conducted. However, wastes which exhibit any of the hazardous waste characteristics (i.e. reactivity, ignitability, corrosivity, and EP toxicity) as defined in 40 CFR Part 261 remain subject to regulation under RCRA.

EPA requests that you make a determination as to whether or not the waste streams listed on your application are hazardous by one or more of the general characteristics. Ignitability and EP toxicity would be the characteristics which would most likely cause paint manufacturing wastes and residues to be defined as a hazardous waste. In order to properly process your permit application and avoid further inquiries, a response within 10 days would be beneficial to yourself and EPA.

If you have any questions, please do not hesitate to contact Bill Walsh at (215) 597-1230.

Re: Acknowledgment of Application for
a Hazardous Waste Permit

This is to acknowledge that the Environmental Protection Agency has received: (1) A notification pursuant to Section 3010 of the Resource Conservation and Recovery Act for the facility located at the address shown above; and (2) Part A of a Hazardous Waste Permit Application for that facility, including a signed statement that the operation of the facility, or its construction, began prior to November 19, 1980. While the information provided by these submissions has not been fully reviewed for completeness or accuracy, EPA will accept this information as an initial qualification for interim status pursuant to Section 3005 of the Act. If after further review of this information, EPA determines that the owner or operator did not fulfill all the requirements for interim status, EPA may treat the owner or operator as not having qualified for interim status pursuant to that section and will advise the owner or operator of that determination. Facility owners and operators with interim status must comply with the standards set forth at 40 CFR Part 265 until a permit is issued. Interim status may be terminated if the owner or operator fails to furnish any additional information requested by EPA in order to process a permit application.

Mr. Rick Shipman
PA Department of Environmental Resources
Division of Hazardous Waste Management
Compliance Section
P.O. Box 2063
Harrisburg, PA 17120

Dear Rick:

As we discussed on February 28, 1983, I am sending this list of facilities which are withdrawing their Part A permit applications. These withdrawals include facilities which have never treated, stored, or disposed of hazardous wastes and now wish to correct their status. Some of these have been motivated by EPA Region III's request for the Part B permit application. These Part B call-ins are the Region's primary concern and therefore, should be given the quickest possible consideration. I will designate these facilities by placing an asterisk(*) next to their name. ~~Other reasons for withdrawing as a TSD include closure, going out of business, and changes in operating procedures.~~

The reason for this letter is to verify what the facility is stating as its reason for withdrawing its TSD status is true and to ensure all requirements, including closure, are met.

I have broken the list down by your state's 6 regional offices and have given a brief description of the circumstances involved at each site. We appreciate your cooperation in this matter and hope to hear from you soon. If you have any questions, please feel free to call.

Sincerely yours,

William L. Walsh

Region I-Norristown

Borden Co. - Krylon Department *-Norristown-PAD 00 186 5906 - 10/25/82
letter from company states that their tank treatment is a recycling of solvents, their waste solvents are reclaimed off-site, and they don't store wastes for more than 90 days. A copy of this letter was sent to Gary Galida.

DuPont, E.I. *- Phila. Plant - PAD 00 231 1884 - 12/17/82 letter from DuPont states that the site is only a research and development facility and they intend to close their drum and tank storage areas and operate as a generator only. They state that a letter and a copy of the Closure Plan have been sent to the Norristown office of DER.

GMC-Warehouse & Distribution Division - Phila. PAD 98 055 5072 - 2/23/83
letter from GMC states that the company wishes to change its status from TSD to small quantity generator. They also would like to retain their ID number.

Inolex Chemical Co. *- Phila. -PAD 04 226 1735 - letter from Inolex states that their drum storage area will be used for less than 90 day storage only and that no closure will be necessary.

McNeil Pharmaceutical -Spring House - PAD 000 73 1471 - 10/12/82 letter to Gary Galida states that company wishes to operate as a generator only.

CK to
TODER
H/14/83
LETTER
Mead Packaging -Fairless Hills - PAD 05 328 6902 - notification sent to DER indicates that no hazardous waste activities occur at this site. However, other correspondence and applications appear to show that some treatment may be taking place. Is it a treater or is it not a hazardous waste management facility?

Pennwalt Corp. - Phila. Plant - PAD 99 082 7578 - 1/21/83 letter to Gary Galida states that facility has realized that they qualify as a small quantity generator.

Sun Chemical Corp - GPI Division -1S-Phila.-PAD 98 055 1907 - 10/25/82
letter from Sun states that facility never stored hazardous wastes for more than 90 days since 11/19/80.

Sun Chemical Corp. - GPI Division -3B -Phila. -PAD 01 482 9840 - 10/25/82
letter states that facility has not stored hazardous wastes for more than 90 days since 11/19/80.

CK to
TODER
H/14/83
LETTER
T&B/Ansley Corp. - Perkasio -PAD 00 249 8699 - 1/26/83 letter states that the facility now has ability to ship their sludge off site within the 90 day limit.

Western Electric Co., Inc.* -Allentown -PAD 00 238 9252 - 2/14/83 letter references a 1/27/83 letter from DER's Norristown office which explains that the site is not a TSD facility. True? If so, why?
